Verified via Mobile App

Transparency & Blockchain Verification

Every vote cast on the Nigeria E-Vote platform is cryptographically signed and recorded on a private distributed ledger. Your Vote ID will be generated upon submission, allowing you to verify that your vote was counted without revealing your choice. This system ensures 100% auditability and prevents double-voting or tampering.

Voter Authentication

Secure access to your digital ballot

National Identification Number (NIN)

Enter 11-digit NIN

Verification Method

OTP via SMS

Biometric Scan

Enter 6-digit OTP
